

MehfoozAI — Pakistan's First Anonymous Harassment Reporting AI

A bold new platform transforming how victims of harassment and assault in Pakistan access justice — safely, anonymously, and without fear.

KHAUFF KA SYSTEM

THE FEAR THAT SILENCES

The Problem: Silence Is Not a Choice

In Pakistan, harassment and emergency cases go largely unreported — not because victims don't want justice, but because the system itself is a barrier. Social stigma, fear of identity exposure, and a labyrinthine legal process combine to silence the most vulnerable.

Fear of Exposure

Victims dread being named publicly. In a society driven by izzat (honor), identity reveal can cause irreversible social damage — silencing voices before they even speak.

Complex Legal System

Filing an FIR requires navigating bureaucracy that even lawyers find challenging. Without legal literacy or support, victims face an impossible wall between themselves and justice.

Weak Implementation

Even when cases are filed, weak enforcement and slow processes erode trust in the system entirely — discouraging future reporting across communities.

Our Solution: MehfoozAI — Anonymity Meets Justice

MehfoozAI meets victims exactly where they already are — on WhatsApp. No new app. No complicated process. Just a safe, anonymous conversation that triggers real legal action. The platform transforms a victim's voice into a verified, court-ready complaint while keeping their identity completely protected.

Anonymous WhatsApp Bot

Victims send text or voice notes to a secure bot. Numbers are masked at every step — identity is never stored, shared, or revealed.

AI Legal Intelligence

The AI automatically understands the incident, identifies applicable PPC sections (e.g., 509, 354), and generates a legally valid FIR draft within seconds.

Zero Identity Risk

Complete number masking ensures the victim's personal data never enters the system — full legal protection without personal exposure.

The Tech Behind MehfoozAI

AI Ka Dum — Smart Legal Intelligence

Three cutting-edge technologies working together to deliver justice in under 30 seconds — what would take a lawyer two hours, MehfoozAI accomplishes automatically.

01

Whisper AI — Voice to Text

Transcribes Urdu and regional language voice notes with high accuracy, making the platform accessible to all literacy levels.

02

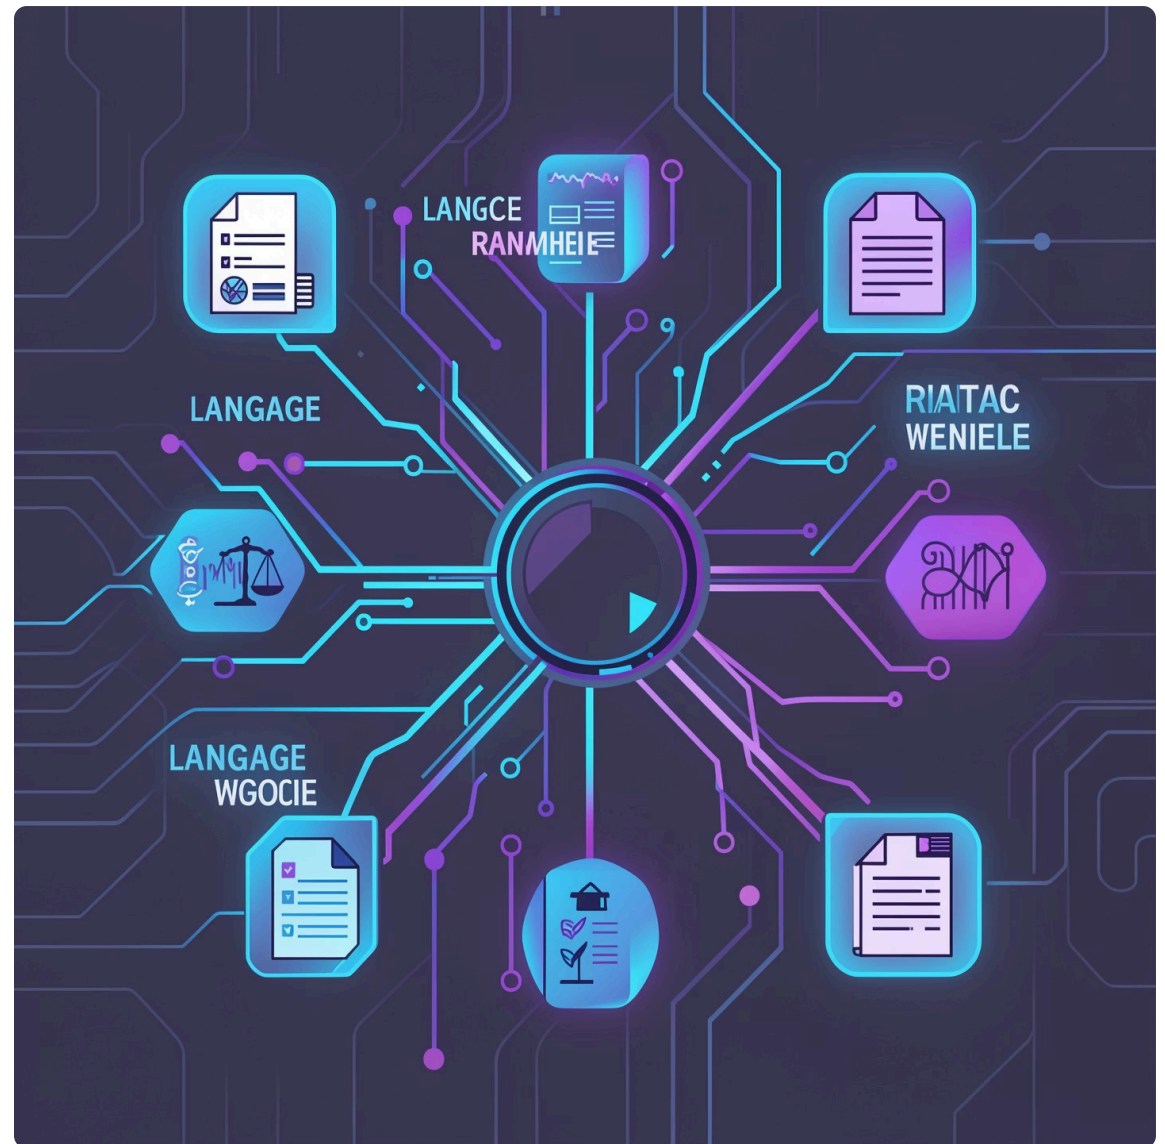

Groq + Llama 3 — Legal Analysis

Extracts incident facts and auto-assigns relevant Pakistan Penal Code sections for immediate legal framing of the complaint.

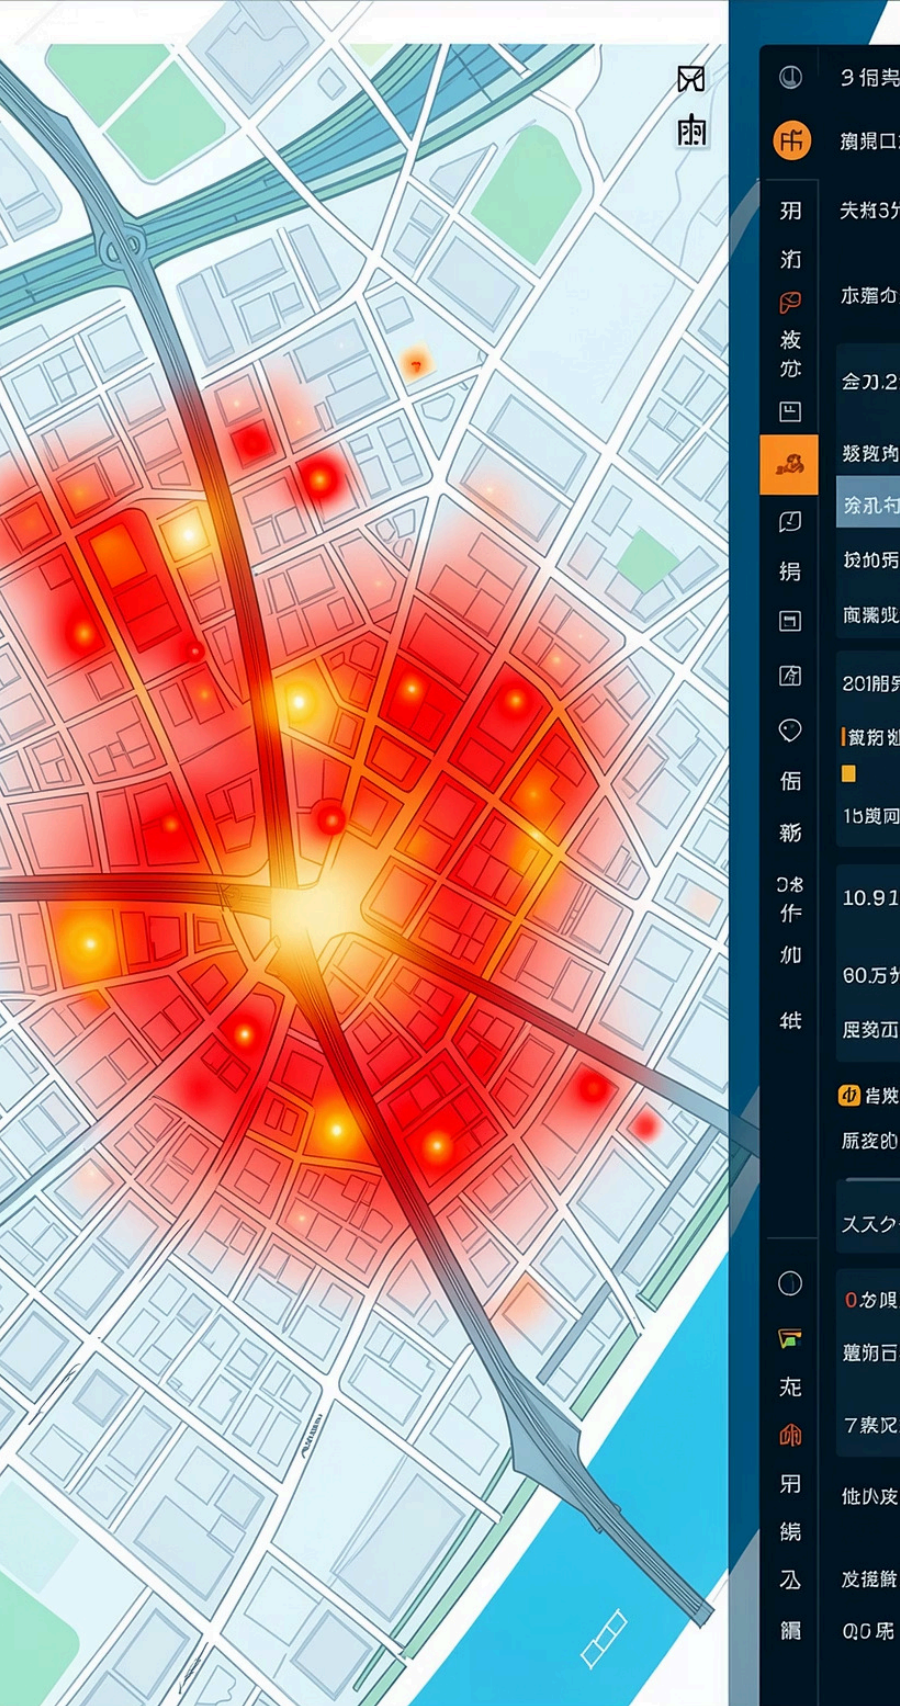

03

Next.js + FastAPI — Scalable Architecture

Production-grade frontend and backend infrastructure, built for scale and reliability across Pakistan's 220M+ population.

i From voice note to legal FIR draft in under **30 seconds** — fully automatic, fully anonymous.

Impact & Trust: Badlao Ke Liye Bunyad

MehfoozAI doesn't just help individual victims — it builds a smarter, more responsive justice infrastructure for the entire country. Real-time data empowers authorities while protecting the people they serve.

Police & NGO Dashboard

Authorities receive real-time case notifications with geographic clustering, priority alerts, and full case timelines — enabling faster, more targeted response.

Live Safety Heatmap

Crime hotspots are identified dynamically, allowing law enforcement to increase surveillance and patrolling in high-risk zones before patterns escalate.

Unbiased & Accessible Justice

No gatekeeping, no bias — every victim regardless of class, literacy, or location receives the same quality of legal support and institutional attention.

Vision & Call to Action: Mehfooz Hone Ka Haq

Every Pakistani deserves to feel safe, heard, and protected. MehfoozAI is more than a product — it is a movement toward a justice system that works for the people. We are calling on investors, NGO partners, and government authorities to help us scale this vision nationwide.

95M+

WhatsApp Users

Already in Pakistan — zero app downloads required for adoption.

30s

FIR Draft Time

From voice note to legal complaint, automatically.

Join the Mission

Investors, partners, and authorities — together, let's build a Pakistan where every victim has the courage and the tools to speak up. **Mehfooz hona, har Pakistani ka haq hai.**
